PROJECTS

RSS Buddy

Jun. 2023 – Sep. 2023

Flask, Python

- Developed a web application to track credits given to customers by petrol bunk dealers.
- It's a go-to tool for seamless credit management and comprehensive bill tracking.
- It has been under constant management and updates, and it is being used by a client and acknowledged by many dealers.

MAC

Nov. 2023 – Jan. 2024

Java, Firebase, Android Studio

- Developed an android application to monitor the quality of water resource in real-time.
- Integrated ESP32 to collect data and commit it to Firebase Realtime Database.
- Integrated MPAndroidChart to seamlessly analyze the quality of water over time.

EatMyUrl

Mar. 2024 – Jun. 2024

NextJS, Express, Kafka, Clickhouse, Redis

Live

- EatMyURL is a cutting-edge link shortener website that goes beyond basic URL shortening.
- It offers in-depth insights into link engagement, providing detailed metrics on devices, operating systems, browsers, and geographic regions where the links are accessed.
- Custom shortlinks and qrcodes can be generated according to your needs

PROBLEM SOLVING

Leetcode Solved over 200 problems on the platform, covering topics such as linked lists, recursion, trees, and dynamic programming.
